

## SpyGlass Pharma Announces Pricing of Initial Public Offering

February 5, 2026

ALISO VIEJO, Calif., Feb. 05, 2026 (GLOBE NEWSWIRE) -- SpyGlass Pharma, Inc. (Nasdaq: SGP) ("SpyGlass Pharma"), a late-stage biopharmaceutical company, today announced the pricing of its initial public offering of 9,375,000 shares of its common stock at a public offering price of \$16.00 per share. The aggregate gross proceeds from the offering, before deducting underwriting discounts and commissions and other offering expenses payable by SpyGlass Pharma, are expected to be approximately \$150 million. In addition, SpyGlass Pharma has granted the underwriters a 30-day option to purchase up to an additional 1,406,250 shares of common stock at the initial public offering price, less underwriting discounts and commissions. All shares of common stock are being offered by SpyGlass Pharma. SpyGlass Pharma's common stock is expected to begin trading on the Nasdaq Global Select Market on February 6, 2026, under the ticker symbol "SGP." The offering is expected to close on February 9, 2026, subject to the satisfaction of customary closing conditions.

Jefferies, Leerink Partners, Citigroup and Stifel are acting as joint book-running managers for the offering.

A registration statement relating to the offering has been filed with the Securities and Exchange Commission and became effective on January 30, 2026. The offering is being made only by means of a prospectus. Copies of the final prospectus, when available, relating to the offering will be available at [www.sec.gov](http://www.sec.gov). This press release shall not constitute an offer to sell or the solicitation of an offer to buy these securities, nor shall there be any sale of these securities in any state or jurisdiction in which such offer, solicitation, or sale would be unlawful prior to the registration or qualification under the securities laws of any such state or jurisdiction.

### About SpyGlass Pharma

SpyGlass Pharma is a late-stage biopharmaceutical company dedicated to transforming the treatment paradigm for patients living with chronic eye conditions through long-acting, sustained drug delivery of approved medicines. The company's mission is to significantly improve the lives of patients with chronic eye conditions by developing durable drug delivery solutions that can empower patients and surgeons with confidence in long-term disease control and vision preservation.

The SpyGlass Pharma platform, a novel, non-bioerodible drug delivery technology, is designed to be used with various well-established, approved medicines, including bimatoprost and other small molecules, providing flexibility to potentially treat a range of conditions in the front and back of the eye.

The company was founded in 2019 by Malik Y. Kahook, M.D. and Glenn Sussman to solve the lack of ophthalmic innovations that capitalize on durable treatment options. The SpyGlass Pharma platform was originally developed in the Sue Anschutz-Rodgers Eye Center at the University of Colorado Anschutz School of Medicine.
